

Damien Lieber

May 20, 6:00 - 7:00 pm (EST)

About Damien

Damien is a sustainability strategy consultant at ENGIE Impact, the client advisory arm of energy group ENGIE with the purpose to “Make Sustainability Happen Today”. He is based in New York. His focus there is on deploying green hydrogen in the United States and decarbonizing cloud services.

Prior to ENGIE Impact, he worked at BCG in New York as a consultant with experience in global strategy, digital transformation, and sustainability primarily in the finance and energy industries. He holds a PhD in Mechanical & Aerospace Engineering from UVA as well as MS in Mechanical Engineering from the Karlsruhe Institute of Technology in Germany and the University of Lyon in France.
